As you remember from the last CYOA, it can greatly affect your child's grades, either positively or negatively. They will also be given an opportunity for extra credit during the CYOA. We will be working on it Monday – Wednesday in class. What isn't finished needs to be done at home. This week we are headed to the Makerspace to create a shield. If your family has a crest or a shield, please feel free to share it with your child. They may want to incorporate it into their project.
Continue prepping the shield to be ready for Thursday
